8:00am – 8:45am  Registration, Breakfast and Vendor Exhibits

8:50am – 9:00am  Introductory Remarks
   
   *Stephen G. Emerson, MD, PhD*

**Session I: Basic Science Advances in Pancreatic Cancer**

**Moderator: Matthew Vander Heiden, MD, PhD**

9:00am – 9:30am  EMT-MET Plasticity in Primary and Metastatic Pancreatic Cancer
   
   *Anil K. Rustgi, MD*

9:30am – 9:50am  Identifying Long Non-coding RNAs in Pancreatic Cancer
   
   *Lori Sussel, PhD*

9:50am – 10:20am  Role of Metabolism in Pancreatic Cancer
   
   *Matthew Vander Heiden, MD, PhD*

10:20am – 10:40am  Uncovering New Signaling Profiles of IPMN
   
   *Gloria H. Su, PhD*

10:40am – 11:10am  Genetic and Pharmacologic Dissection of Pancreatic Cancer Metastasis
   
   *Monte Winslow, PhD*

11:10am – 11:55am  **Keynote Speaker**
   
   Emerging Targets from the Pancreatic Cancer Genome
   
   *Anirban Maitra, MBBS*

   Q&A

11:55am – 1:10pm  Lunch and Vendor Exhibits

**Session II: Updates in Clinical Research and Clinical Trials**

**Moderator: John A. Chabot, MD, FACS**

1:15pm – 1:45pm  TBD
   
   *TBD*

1:45pm – 2:05pm  Improving Outcomes through Innovative Clinical Trials in Pancreatic Cancer
   
   *Yvonne Saenger, MD*
2:05pm – 2:35pm Genetic Features of Subclonal Evolution in Pancreatic Cancer
Christine A. Iacobuzio-Donahue, MD, PhD

2:35pm – 2:55pm Pharmacological Targeting of Non-oncogene Dependencies in Pancreatic Tumors
Andrea Califano, PhD

2:55pm – 3:25pm Pancreatic Cancer Immunotherapy
Dung Thi Le, MD

3:25pm – 3:35pm Q&A

3:35pm – 4:00pm Break and Vendors

Session III: Translational Research
Moderator: Kenneth P. Olive, PhD

4:00pm – 4:20pm Role of Stress and Neurons in the Development of Pancreatic Cancer
Timothy C. Wang, MD

4:20pm – 4:50pm TBD
Raghu Kalluri, MD, PhD

4:50pm – 5:10pm Tissue-penetrative Targeting of Pancreatic Cancer
Kazuki N. Sugahara, MD, PhD

5:10pm – 5:40pm Targeting Critical Functional Dependencies in Pancreatic Cancer
Giulio Draetta, MD, PhD

5:40pm – 6:00pm Damaging Pancreatic Cancer Cells: Attacking the weak spots
Kenneth P. Olive, PhD

Q&A and Closing Remarks
