and Surgeons*

ColumbiaDoctors | *Surgery*

Dear Faculty,

In this month's issue, our focus is on the [Resurgence of Surgical Science at P&S](#).

Our goal is to streamline the process of bringing novel therapies and surgical advances from bench to bedside, and to give surgeons, who have less time to maintain their own labs, the opportunity to pursue their own research questions.

Under the direction of Donna Farber, PhD, this new venture features some of the world's leading investigators. Nigel Bunnett, B.Sc, PhD, is uncovering the way chronic pain is transmitted through nerve cells; David Sachs, MD, is developing a pig colony whose organs are more compatible for transplantation in humans; and Giovanni Ferrari, PhD, is exploring how cardiovascular diseases affect the physiology of heart valves and vascular cells. We will continue to report on this important initiative in future newsletters.

Below you will find a list of our recent contributions in cardiac, GI/endocrine, thoracic, and plastic surgery, as well as immunology.

Please continue to email Paul Kurlansky (pk2245@columbia.edu) or me (crs2@cumc.columbia.edu) with regular updates on your grants, publications, and presentations by the first of every month.

Remember, journal links may require subscriptions or a log-in through the Columbia library while PubMed links are accessible to all.

For easy reference, we now post all issues of this [newsletter](#) on the Center for Innovations and Outcomes Research website.

Craig R. Smith, MD, FACS
Chair, Department of Surgery

CONGRATULATIONS

Donna Farber, PhD has received a grant of \$480,916 from Bristol-Myers Squibb

Research and Development for Tissue Immune Responses in the Human Pancreas.

Giovanni Ferrari, PhD, has been awarded a \$250,000 grant by The Kibel Fund for Aortic Valve Disease Research to study Molecular Determinants of Calcific Aortic Valve Disease.

CARDIAC SURGERY

Presentations

*Scientific Sessions of the American Heart Association
Anaheim, CA, November 2017*

Ando M, Takeda K, Kurlansky PA, Wright M, Lee C, Han J, Garan AR, Topkara VK, Yuzefpolskaya M, Colombo PC, Farr M, Naka Y, Takayama H. How much blood type non-O recipients should get blood type O donor hearts? Survival simulation by blood type using the United Network for Organ Sharing registry and Markov mode.

George I. TAVR vs. SAVR: TAVR Pro: The Future of Cardiac Surgery.

Ferrari G. Influence of Mitral Annuloplasty on Durable Repair for Ischemic Mitral Regurgitation. Innovation in Cardiac Surgery: From Imaginative Research to Transformative Clinical Therapy.

*Animal Medical Center's Third Annual One Health Conference
Cornell University New York, NY, November 2017*

Ferrari G. Pathophysiology Mitral Valve Prolapse.
