INTRODUCTION
This program is intended to provide up to date and evidenced based clinical information on the comprehensive management of obesity, a rapidly evolving field. There is a significant emphasis on new endoscopic modalities and a component of hands-on training. Our internationally recognized faculty will present lectures and case presentations on the latest data on the innovations in minimally invasive bariatric surgery, as well as, the growing field of endobariatrics.

LEARNING OBJECTIVES
• State the indications and outcomes of approved bariatric procedures and surgeries
• Describe new technologies, their benefits and use in obese patients
• Utilize a comprehensive approach to bariatric care

TARGET AUDIENCE
This program has been designed for an audience of bariatric surgeons, gastroenterologists, endoscopists, endocrinologists, general surgeons, internists, primary care physicians, nutritionists, pediatric endocrinologists, pediatric gastroenterologists, RNs, PAs, NPs, nutritionists and other medical professionals involved in the evaluation, diagnosis and/or management of endoscopic and bariatric disease.

ACCREDITATION STATEMENT
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Amedco and Columbia University Department of Surgery. Amedco is accredited by the ACCME to provide continuing medical education for physicians.

CREDIT DESIGNATION STATEMENT
