

HEART SURGERY AT COLUMBIA

Our team's combination of skill and expertise make Columbia one of the most extensive and sought-after heart surgery programs in the country.

COLUMBIA | CARDIAC SURGERY

WHY COLUMBIA FOR HEART CARE?

Heart Attack & Cardiovascular Care: Our team are world leaders in surgical treatments for coronary artery disease and heart attacks.

Valve Disease Care: As part of the comprehensive Structural Heart & Valve Center at Columbia, our surgeons provide the latest techniques for mitral, tricuspid and aortic valve disorders.

Heart Failure Care: Our Heart Failure Program include world-leaders in transplant surgery and experts in mechanical circulatory support using devices like the LVAD.

Hypertrophic Cardiomyopathy Care: Our surgeons help lead one of the only multi-disciplinary Hypertrophic Cardiomyopathy Centers in the world.

Heart Tumor Care: As part of the Cardiac Tumor Program, our surgeons are proud to be among one of the only centers in the world dedicated to caring for patients with a cardiac mass.

Aortic Disease Care: Working closely with our colleagues in Vascular Surgery, we offer a full-service Aortic Center, including a specialized clinic for aortic conditions related to Marfan Syndrome.

Congenital and Pediatric Care: Our pediatric services include a top ranked Pediatric & Congenital Heart Program, a dedicated Congenital Valve Disease program, and one of the largest and most well-established Adult Congenital Heart Centers in the United States.
